

Welcome Life Scouts and Parents;

Included on this web page is all the information needed to complete the Eagle Scout Project package for submission to the Troop Committee and to the District Advancement Eagle Scouts Review process. Please review all of the files and instructions included. For your convenience, the information has been created in a Word or PDF format. Therefore, you will need MSWord and Adobe Reader to use the files that are on this web page. You are welcome to save and print all of the documents. The documents are the *Eagle Scout Leadership Service Project Workbook*, the *Eagle Scout Application*, the *Scout's Goals and Ambitions*, and the *Letters of Appraisals* that can be filled out and saved on your computer. Once you save them on your hard drive, you will not need to access this web page. Use the tab key or mouse (not return/enter key) to move from field to field on each form. You will have to double check your spelling and grammar manually because spell checker will not work. Good luck on your journey becoming an Eagle Scout.
